RECOGNIZING AUBURN MANUFACTURING, INCORPORATED

● Ms. SNOWE. Mr. President, today I celebrate the vital work that a small business in my home State of Maine is doing to provide extreme temperature textiles to dozens of industries worldwide. Auburn Manufacturing, Incorporated—or AMI—of Mechanic Falls is a veritable leader in its field, and has been designing and manufacturing advanced industrial textiles since its inception in 1979.

Auburn Manufacturing's name is synonymous with quality and dependability because of its longstanding dedication to providing customers with products made using the most cutting-edge technologies. AMI develops and manufactures top-of-the-line products for welding protection, gasketing and sealing, and pipe and hose covering, as well as safety apparel like gloves and clothing. And the company's 48 employees make all of its products at the company's central Maine facility.

One of AMI's major new products is the Ever Green Cut 'n Wrap insulated cover. Designed for companies seeking to reduce greenhouse gas emissions and heat loss while saving on energy costs, the custom-fit insulation blankets fit flexibly over valves and piping and reduce room temperatures for workers in extreme conditions. In fact, the Ever Green Cut 'n Wrap kits can reduce heat loss by over 85 percent, and they have a payback of less than 1 year. Last month, AMI received a seed grant from the Maine Technology Institute to help the company commercialize this forward-thinking, environmentally friendly product.

Additionally, earlier this year Auburn Manufacturing announced that it had received dual contracts to provide the U.S. Navy with the company's remarkable AMI-SIL fabrics that are used for hot work protection during the repair of naval ships. The Navy has certainly demonstrated its approval of this impressive product, having awarded AMI five contracts over the past 15 years to supply it with more than 1.25 million yards of fabric.

Another quality that makes AMI special is its status as a Women's Business Enterprise, a certification made by the highly regarded Women's Business Enterprise National Council. Additionally, AMI owner Kathie Leonard was recently named one of Mainebiz's 2009 Women to Watch. In my estimation, Kathie Leonard has been a woman to watch throughout her entire career. She founded AMI in 1979—at the age of 27—when she realized the vast potential of new heat-resistant fabrics which were developed to replace asbestos. Over the company's 30-year history,

Ms. Leonard has been a part of several major professional organizations both national and local, including the National Insulation Association and the Lewiston-Auburn Economic Growth Council, which she previously chaired. She readily admits that these connections have helped her company grow into the giant it is today.

The quality of AMI's numerous products afford its clients a sense of confidence that has solidified the company's status as a premier developer and manufacturer of extreme textiles nationwide. I congratulate Kathie Leonard and everyone at Auburn Manufacturing for the incredible work they do, and I wish them much success in the future.●
